

Mack Certified Warranty

US RETAIL PRICES

Mack Certified keeps your truck working as hard as you do, with one of the strongest used truck warranties in the industry. It delivers a smooth handoff from factory coverage to extended protection built for the long haul. All eligible trucks are eight model years or newer and must be powered by a Mack engine. If the truck includes a Mack transmission, it's automatically covered at no additional cost.

Each warranty includes a \$350 deductible per visit and can be upgraded with an optional Uptime Service Bundle featuring GuardDog Connect, ASIST, Remote Programming, and Mack OneCall™ for 24/7 support.

Engine Coverage: 6 Model Years & Newer and up to 500,000 Miles
